# REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: This is a divisional of the U.S. Patent No. 6,753,294. A plurality of channels plugged at the upstream end and a plurality of channels plugged at the downstream end with an oxidation catalyst on a gas impermeable zone in the wall-flow filter, in the method for treating soot-containing exhaust gas of the instant claims 1 and 28, would not have been obvious to one of ordinary skill in the art at the time the invention was made.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
